Dear Alums,

First of all, we hope you have had a great winter holiday break, and are well on your way to a fun, happy, and fruitful

New Year. Since we find ourselves in February, and we like to have this newsletter to you in January, we apparently need to revisit our New Year's resolution of being more timely with our mailings. We'll try to do better next year.

We have been extremely busy around the office here in Tucson.

Our first session enrollment filled up very quickly this year, and while there are still openings in 2nd session, it looks very strong too. The fall and early winter was time for reunions in several different cities like Chicago, Milwaukee, St. Louis, Tucson, Houston, Nashville, and Denver. We still have trips planned back to Chicago and St. Louis, as well as to Cincinnati to visit with kids, and now our focus is turning squarely to finding the handful of new folks we're going to need to round out our staff. It looks like a vast majority of the staff from last summer is going to be back, including a huge number of guys who were campers, then CITs, and are now JCs. They add so much energy and fun to the staff, and we're very fortunate to have so many of them with us again.

The summer of 2006 went by like a flash! In our 22 years at Timberlane, this was clearly the best weather we had ever experienced up there. (We know we said that last year, but who woulda thought it could get any better?) It was "Chamber of Commerce" North Woods weather. The days were bright and clear and warm, but rarey was it hot. The nights were cool and crisp, perfect for sleeping. We could have used more precipitation, or "heavy dew" as we refer to it, but towards the latter half of the summer we got enough to green the fields back up, and keep the lake at a healthy level. And most of the wet stuff came down at night, so over the entire summer we only lost about 6 activity periods to Rainy Day programming. It would be asking too much for another summer like that one, but if someone can arrange for us to get close to that, we'd sure appreciate it.

We added another new staff cabin last year to accommodate our increasing number of married staff members. "Seneca" is the new cabin, and it is located on the road that passes between

Menominee and Seminole Cabins, then turns left and heads to the Swim Area. Seneca is on the far side of that road, sitting back quietly in the woods. It can accommodate 2 couples, each with their own bathrooms, and a chunk of serenity being away from the crowd and back in the forest.

We continue to draw campers from cities scattered across the country, joining us from Phoenix, Scottsdale, and Tucson, AZ; Los Angeles and San Francisco, CA; Denver, CO; Wilton, CT; Boca Raton, Lake Worth, and Satellite Beach, FL; Atlanta, GA; Pukalani, HI; Chicago, IL; Indianapolis, IN; New Orleans, LA; Eden

Prairie, Red Wing, and St. Cloud, MN; St. Louis, MO; Williamstown, NJ; New York, NY; Tulsa, OK; Bryn Mawr, PA; Barrington, RI; Houston and Galveston, TX; Chesterfield, VA; Milwaukee, WI, and Mexico City and Chihuahua, Mexico.

And a happy and energetic bunch they were. This past summer saw the most enthusiasm ever for our trips program. We sent out nearly 40 different trips canoeing, backpacking, rock climbing, and sea kayaking, and

participation on the trips was huge. Nearly every camper in camp went out at least once, and many, many kids went on multiple trips. There was a total of 215 camper/trips this past summer, and we anticipate that number to go even higher this year. In camp, we had a great year in all of the activities. Each summer seems to have its own flavor as far as which activities gain in participation, which may decline a bit, etc. Naturally, Skiing remains very strong, and our Timberbats did a spectacular job in their shows at our camp and the girls' camps they skied for. Rock Climbing is always popular, as is Horseback Riding. Our Baseball, Soccer, and Basketball programs were all very well attended, and in the few games we played with other camps, we rocked! We're still the same ol' non-competitive place we always were, but our sports instruction has become very strong, and the kids performed accordingly. We're just proud camp directors!

One high point of the summer for us was the return of **BILL MILLER** to camp for the last 2 weeks of the summer. Bill had been our Head

Timberbats....

Cook and Kitchen Manager for 13 summers, right up through the summer of 2000. He needed a little break....for about 5 ³/₄ years, but this past summer he came back to help us out of a bind, and it was so great to have him there. We were well-fed, and Bill has decided he missed the place, so

he will be back in 2007 full-time as our Kitchen Manager. Our stomachs have seldom heard better news!

There was also a very low point this past summer. Shortly after 2nd session began, we learned that Charlie Glik, a recent camper, passed away in a tragic car accident in St. Louis. Charlie's dad, Bob Glik, was a camper in the 60s at Timberlane. Charlie's brother, Billy, has been camper with us for many summers, including this past one, and his cousins Peter and Eliot are also Timberlane guys. Charlie was always a huge presence at camp, starting from a very young age. He was bright, athletic, very energetic & gregarious, and had a great sense of humor. He had many, many friends through camp, and as we learned at the Memorial Service in St. Louis, many more at home. Affection for Charlie at camp was notable by the presence of 3 of our staff members who left camp during the summer to be at his funeral. The Glik's expressed their gratitude for all that camp has meant to Charlie and Billy, and plan to enable a camper scholarship in Charlie's memory.

Looking ahead, we've got a great summer in store for 2007. You may have noticed the beautiful renovation we have already finished on the Rec Hall. That work was completed this winter, but it is only the beginning. Not only is there new half-log siding and windows that open and close, but we also added on to the building. KTIM will now be located in a room on the front of the Rec Hall, with the ability to provide music for indoor/outdoor socials, staff shows, etc. We also added a large new room for our Drama program to use for props, costumes, and a "green room." And the interior of the Rec Hall is being overhauled too. It will be finished off, floor to ceiling, with knotty pine paneling, and a new fold-down stage will be installed on the east wall, across from the fire place. New lighting is going in, and the Rec Hall, while still housing ping, pong, foosball, and other indoor activities, will now be able to host other large scale indoor programs, socials, etc.

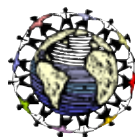

Backpackers on Isle Roy-

Our caretaker, **GREG FUS**, has been busy working on cabins. Cheyenne has been renovated, extending the bathroom across the entire back of the cabin. New bathroom floors of ceramic tile are going into Cheyenne, Hawk, Navajo, and Cherokee. In his "spare time," Greg has also built new cabinets for the Trip Shack, and a new desk/work station in

one of our offices. The guy is nothing short of amazing, and we continue to marvel at our good fortune of having him with us year 'round. There are countless other improvements happening to the facility and program areas too. Camp is truly in spectacular shape!

Camp for All Kids

CAMP FOR ALL KIDS IS MOVING INTO A NEW PHASE AND **TRULY** NEEDS YOUR HELP! Last summer over 70 kids attended 5 camps, ours included, thanks to funds raised and distributed by Camp for All Kids. CFAK has a new board, a new fund-raising director, and a new urgency to establish an endowment that will carry the program forward indefinitely.

You have a whole year to fill us in on the events of your life. You can do it so easily right from our website. Please make the effort to keep connected with us. Your camp family loves to hear about you. Have a safe and happy year! Till next time...

Benches up,

Leslie & Zlibo

The past two years we have held fund-raising events to raise money for current-year operations, and build an endowment. Our target is \$3 million, and we still have a long way to go. These fund-raising events have been in the Chicago area, the city representing the largest segment of alumni from the 5 participating camps. This past fall we held the World's Largest Camp Reunion at Victoria's of Highwood. It was attended by over 200 folks, included live music by The Underwater People, and a silent auction. Timberlane was well represented there, and we offered our unique flavor with **MIKE PIERCE** belting out a rendition of "Rocky Raccoon" as only he can, alongside the band. The event was organized in part by Timberlane alums **BEN CRANE** and **TODD KESTIN**. Everyone had a great time, and we did raise some money, though we hope to do better in the future.

We are, again, asking you for your help. There is no questioning how valuable this program is to the scholarship recipients, but we shouldn't underestimate how important it is to our kids whose parents can afford to pay tuition. It is truly a win-win proposition.

You can help by making donations directly online at www.campforallkids.org. And if you have ideas regarding fund-raising ideas, foundations you have contacts with, or anything else, please call us at our Tucson office. Thank you very much.
