Dear Alums,

Greetings from the beautiful desert in Tucson, Arizona. As we enjoy our nice winter weather down here, sunny and mid 60s, and gaze out at the Santa Catalina mountains, we know that, at

this moment, the winter is very real up at camp. So far, camp has been blessed with a thick blanket of snow, and we are hoping for much more. Our caretaker, GREG FUS, has been sending us photos periodically of camp covered in snow, and it is a beautiful sight to see. The winter months are quiet at camp, but Greg stays very busy. More on that later.

Speaking of busy, it has been a hectic few months for us here in the wild world of camp directing. In the few weeks leading up to the holidays, Mike managed to visit kids in St. Louis, Denver, Louisville, Nashville, and Houston. You know you've been traveling a lot when the gate agent for American Airlines asks you how your enrollment is doing! Lots of traveling, and lots of great kids means we're going to have another fantastic summer ahead. Some of our new kids are coming to us from folks like you. For instance, after many years without any Dallas kids, we're now going to have a few thanks to a phone call from alumnus STEVE SCHACHTER.

Exactly the same thing happened last winter with JIM HIKEN in Louisville, and last summer we had 4 great kids from there, including two Hiken boys. We're very proud of the geographic diversity we have represented at camp. In 2007, we had campers from Phoenix and Tucson, AZ; Los Angeles and San Francisco, CA; Denver, CO; Wilton, CT; Boca Raton, FL; Atlanta, GA; Chicago, IL; Indianapolis, IN; Louisville, KY; Minneapolis and Red Wing, MN; St. Louis, MO; Williamstown, NJ; New York, NY; Cincinnati, OH; Tulsa, OK; Bryn Mawr, PA; Memphis and Nashville, TN; Houston, TX; Milwaukee and Clinton, WI. Not to mention our international flavor, bringing in kids from Chihuahua and Mexico City, Mexico, and we also had 2 boys join us all the way from Hong Kong, China! And we're also very pleased with the number of 2nd generation kids we have now at camp. These are kids whose father also camped with us. A list of those names appears later in this newsletter. Read on!

The summer of 2007 was wild and crazy and was, by far, the driest summer we can remember. The entire summer saw only 3 or 4 activity periods lost to "heavy dew" (it never rains at camp.) It didn't take long for the athletic fields to show the stress and turn an inviting shade of brown. The lake also suffered a bit, and reached the lowest level we have seen in our many years up there. That's why we get so excited when we hear about snow and rain hitting northern Wisconsin this winter, and hopefully much more this coming spring. Lake Towanda is thirsty, so we hope January, February, March and April showers bring May... showers too.

Of course, the warm dry weather was great for the kids, and they had a blast! The newly renovated Rec Hall came in so handy so often. It started on the very first day of camp....the only full day of rain all summer long. When the buses with the kids rolled in, it was a monsoon! So, we just pulled the buses up to the Rec Hall door, and unloaded in there. No sweat! Throughout the summer the newly re-invigorated radio station, KTIM, was rocking and rolling. As we had hoped, the kids were newly enthused about broadcasting and there were some great shows. One camper had a periodic show during Rest Period when he would spend an entire hour talking about fishing! Yes, he was from Wisconsin. Another of our older guys had a night time show called "Lights Out" when he would play some laid-back music and tell stories to help the

younger guys fall asleep. But guess what we learned? Campers no longer bring radios to camp! They bring MP3s and iPods. So, after all this work and investment to build the new KTIM, we also had to run out and buy radios for every cabin. \*sigh\*.

Are ya wondering what's in store for 2008? We're glad you asked! Ongoing maintenance is...well...ongoing. More upgrades in the Lodge, in this case, renovating one of the bathrooms with a nice ceramic tile floor. The same has happened already in the bathrooms in Arapaho and Shawnee cabins. Wolf cabin is sporting all-new windows all the way around, and we've added a bunch of windows in there, particularly on the lake side of the cabin. Some of the less obvious work Greg will be doing will include adding some custom cabinetry in the Manor offices, and in the Staff Snack Room in the Lodge. Perhaps the most notable and visible improvement will be our main baseball diamond. Baseball is, once again, huge at camp, and we've decided it was time to level the ballfield. So, we did just that...brought in some heavy machinery, and leveled the baseball field and replanted grass. No

more Timber-hops on the infield! There are lots of excited kids about that. And this summer we will introduce a new instructional Volleyball program to our already huge selection of activities.

We are also preparing to launch our brand-new, completely re-designed website. The new camp timberlane.com is being designed and developed by former camper and CIT **SAM ROSEN**. Sam's company, One Design Company, has some big-time clients, and we're happy to be one of them. The new alumni section will include, among other things, an email directory so you

can keep in touch with camp friends of old. The site will launch soon, so please check it out.

## Alumni Updates:

great to cruise on over in their pontoon boat, but **HAROLD & SHARON HIKEN** gave the boys some space, only spotting them at the social at Camp Agawak....as far as we know, anyway. ## A CALL TO ACTION FOR ALL GENERATIONS OF TIMBERLANE ALUMNI!

Whether you grew up at Timberlane in the 60s or 70s, with bell-bottom jeans and hair past your shoulders, or you grew up at camp in the 90s and 2000s, with your jeans waist line below your butt cheeks, your boxers hanging out, and your hair still past your shoulders, we all have so many things in common:

1. We had the benefit of a camping experience that is typically available only to the privileged few.
2. We had the opportunity to forge friendships that carry on into adulthood.
3. We reaped the rewards of a guided discovery through independence, self-reliance, and community building.
4. We have memories from our summer experiences that we will never, ever forget.
5. As a result of all we've learned about being a part of a community, we should ALL feel a compulsion to share this opportunity with those less fortunate.

Folks, it matters not what generation of the Timberlane Family you hail from. **LET'S ALL PAY IT FORWARD.** We are in a position to have a tremendous life-long impact on some very needy and deserving kids. Let's open our arms (and our checkbooks) and welcome these kids to our community.

Last summer we had 17 boys at camp on full scholarships. 13 of them had subsidies from Camp for All Kids. This is the ONLY way we can afford to welcome so many kids whose families wish they could pay tuition, but cannot.

A Camp for All Kids scholarship costs about \$2950. We ask that you consider sponsoring or contributing towards the sponsorship of a camper for either one summer, or for his (or her) camping career. Imagine the rewarding feeling of providing this for another child.

If you'd like to make a tax-deductible donation online, the website link you need is:

<http://www.campforallkids.org/donate1.php>

All of us at camp thank you very much for your consideration, and your generosity.
