Dear Alums,

The summer of 2011 launched the 2nd 50 years of Camp Timberlane. And as we rarely fail to find reasons to celebrate anything and everything...we celebrated! It was pretty funny, actually. Since 2010 was our 50th, and we made a pretty big deal about it, in 2011, the kids were just not ready to stop making a big deal about it. So throughout the summer, you could hear kid and counselors saying, "Hey, let's do this because it's camp's 51st year!" "Oh really?!" "Yeah, seriously! 51st year!" Okay, so the whole thing was laced with a little sarcasm, but it was still fun, and it did - in fact - make the summer that much more fun.

Discovering Similarities Celebrating Differences

was launched courtesy of a substantial matching pledge made by **ROB SCHILLER** and **MARTY LYNCH**. Their generosity sparked a great showing of support from alumni throughout the years, as well as parents and staff who are currently involved with camp. When it was completed on December 31st, **the campaign raised over \$39,000, which was matched by Rob and Marty, to total \$78,000!!** We are so proud of our community for stepping up like that and ensuring that these great kids can continue to have a future at camp. Thanks to all of you who participated, and particularly to Rob and Marty for making it happen. We also thank **BRIAN "WILLY" WILLIAMS** for his participation as a board member with CFAK, and for the expertise he brings to the organization.

Folks, we sure hope this marks a "ramping up" of support for CFAK from our alumni and our current community. This matching campaign has been very successful, but we urge everyone to talk with their camp friends, and get them involved. We can continue to serve these great campers and gain from their experiences with us only if the support continues. Donations to CFAK are welcome anytime and can be made via their website at: **www.campforallkids.org**. Thank you.

WHAT'S UP WITH CAMP? We're certainly seeing signs that the economy around the country is improving, and that is helping most camps bounce back to healthy levels of enrollment. Last summer we were booked up solid for our 1st session, and fewer than 10 kids away from booking up the 2nd session as well, so we're thankful we have remained very strong throughout the downturn. For the summer of 2012, we will be completely full well before the summer arrives. And we're excited to continue spreading our geographic base with new campers joining us from Boulder, CO, Omaha, NE, and Columbus, OH.

And we're not letting up at all in our projects to continue keeping camp in superb shape. We did it up big leading up to the 50th summer, just 'cause it was the 50th ("Really? 50 years?!" "Yeah, no kidding!"). But once you are on a roll, it's hard to stop, so we kept right at it for last summer and actually for this coming summer too.

Last summer we remodeled the bathrooms in 3 cabins, installing ceramic tile floors. Yes, it sounds fancy, but it really isn't...it's

pretty basic green tile. What it IS is maintenance free...our 2 favorite words. We won't have to worry about replacing these floors - in spite of the gallons of shower water that pour onto them on a daily basis - for many decades to come. That process is continuing, and we have redone 4 bathroom floors for this coming summer. That only leaves us with 2 more to go, which we'll complete after the summer. The bathroom in Chippewa Cabin was torn off completely, and an entirely new bathroom was built in its place with 2 showers (yeah, they use 'em once in a while), and 2 sinks, as well as the toilet.

SWEET CLIMBS

Programmatically, last summer we built a brand-new batting cage for our baseball program. We located it between the weight shack and the bouldering cave, tucked up against the tree line. Inside the cage we installed an Iron Mike pitching machine - top of the line! So now we make use of the cage during the baseball activities, but we also open it up during free periods just so kids and counselors can get some hacks in. It was definitely a very popular addition. We also replaced one side of the climbing tower (all 70' of it!) with a synthetic rock surface that is just like the real thing. It's great for climbing, of course, but also beautiful to look at. And we added a new Cardio program to pump the boys up, and a Floor Hockey program to boost the local dentists' business.

This coming summer things are looking great as far as work on the facilities. We're going to tackle a project we've been looking forward to for some time. If you had the chance to visit camp recently, you've seen we've done a lot of work on the Lodge. That will continue this year as we replace the large counters in the kitchen area with stainless steel tops. Better still, we're going to tear off the old siding on the outside of the front and CA side of the Lodge, and replace it with some beautiful half-log siding from the top down to about the 3' line. Below that line we'll install cultured stone down to the ground. Once that's done, it will match the siding we installed on the Manor a few years ago, and the CA will be incredibly beautiful. We spend so much time in the Lodge (though it still is amazing that we can feed 160 kids and 80 staff members in about 30 minutes), and we're happy to have such a beautiful building to enjoy our meals in. So things are still hopping in our little corner of the great Northwoods, and we cannot wait for the start of our 52nd summer on June 18th!

One last little bit of cool camp news. Our website has become a pretty important hub for camp families and staff members. Over the last few years, we've actually enrolled a few campers via our site too! Imagine that...no camp visit, no word-of-mouth referral...just liked the website and signed up for camp! We needed an update on the section of our site that allows you to take a "virtual tour" around camp, and we

own Assistant Director (and artist), **RICK JONES**. It's incredible! And all of the programming to make the thing function was designed by a current staff member, **AARON ZEMACH**, who is from Chicago and is a student at Washington University in St. Louis. Helping us put our best foot forward!

Alumni Updates:

HAROLD & SHARON HIKEN continue their bi-annual trek between Lake Towanda in the summers and Florida in the winter months. Each summer they have welcomed their grandsons' cabin groups for a paddle across the lake and a nice picnic lunch on their in-camp Cruiser Days. And now that they have 3 grandsons at camp, that's a lot of hotdogs!

His son, Ben, is an attorney in Milwaukee and works in the law firm of **STEVE KRAVIT**. **KENNETH SHAPIRO** lives in LA and produces and directs one of the nation's largest holiday spectacles, that is broadcast on public television, the internet, and the Armed Services Network.

His burgers were featured on the front cover of the November issue of "Jacksonville Magazine." **REED SEXTER** is an attorney living in Rockville, MD., and hosted a camp open house for us this winter. **MIKE "MP" PIERCE** and his wife, the former Porter Camp Suzi Schroeder, have been and are still working at Camp Agawak. This will be MP's 17th summer at Agawak, and Suzi's 5th. Suzi will be traveling to Australia to meet and hire staff for the upcoming summer. MP's a little jealous!!! **TODD COHEN** has an MSW and works in the Gerontolgoy area at a Nursing and Rehab center in St. Lucie, FL. **JON SCHNEIDER** lives in Skokie, and visited camp this past summer. **JON HEALY** is a product manager for IBM in Chicago. time girlfriend back in July. In San Diego, **JEFF SALLEN** is into his 5th year in commercial real estate, and says most days he really loves his job. In West Chicago, **FRANK FEHRENBACH** has been with his AV company for 18 years, and this summer he will be a camp dad! **ZACH FREDMAN** lives in Chicago and is still in the construction biz. Being a St. Louis boy, he thoroughly enjoyed the Cardinal World Series victory! **MATT RICH** is also in Chicago with his wife and 2 boys.
