Dear Alums,

We had a spectacular summer last year (much more on that later), and this winter, many of you have been introduced to the "Polar Vortex." Now that we know what that is, have to say, we're not big fans.

Living in Tucson, we don't really get to complain about winter weather. However, my travels for camp brought me into the teeth of this winter weather fairly often, and meanwhile, up at camp, we have seen more snow on the ground than we can ever remember. As of early March, there was nearly 4 feet of snow on the fields. Twice now we have had to shovel the roofs of the buildings to avoid them collapsing from the weight of the snow. That would be bad. Our amazing caretaker, **GREG FUS**, is the consummate northwoods man, and even he's gotten sick of it this year. On the plus side, we know Lake Towanda is going to continue its rebound from the drought we experienced in recent years, so we'll be happy with a healthy lake.

The summer of 2013 was an incredible experience for all of us. It started out with 2 major construction projects at camp. To begin with, we gave the trampoline area a face lift like you wouldn't believe. Given how heavily it is used, and the fact that it's one of the first things you see when you arrive in camp, we wanted it to be easier on the feet and on the eyes. So at the end of 2012's summer, we tore all of the fencing out and just left the holes in the ground. That fall, into the spring, and the very early summer, Greg went to work and ultimately he constructed an enormous wooden deck that encompasses the entire tramp area. It's level, it's up off the dirt, and it is absolutely beautiful! Greg did a phenomenal job on it, and the kids were so amazed! If you get the chance, check out the "tour" section of our website, and you can get a really good sense of just how sweet it is.

And while that was going on, we were also busy with the plans for a huge new building out in the Mountain Biking area (old Stables), where we created an enormous floor hockey/ga-ga facility. 2 small points of confession here...1) It is not the most beautiful building you'll ever see. That's why we tucked it away in the corner of the woods. 2) This new building is big enough to store every single boat we own in the winter time. So sure, the kids love having a great new hockey arena to play in, and it was nice having a new facility for those days of "heavy dew." But oh my...for the "off-season" it is the greatest storage building in the Northwoods!

The summer ahead will be epic once again. We have a full enrollment, and another big return of staff from last year. 10-Year Man **JAKE REUTER** has taken over as our year-round Associate Director, and we're fortunate to have him with us. Our crew of Assistant Directors is still with us, including **RICK & HOLLY**

JONES, JEFF MELROSE, STEVE HITCHENS, and we're joined this year by long-time counselor & Junior Village Director **BRIAN STRAIN**. And of course, **BILL MILLER** is back cooking for us, so we will again be very well-fed.

And we've got another huge project in the works this summer. It is time that we complete our re-design of the 70' climbing tower. 2 years ago, we replaced one side with a synthetic rock surface, and this spring we'll complete the last original side. The surface will actually roll over the corner of the wall, so it's going to end

up looking like a natural 70' tall rock pillar. And we're designing in a walk-out rappel platform to make it much easier for us to teach rappelling to the kiddies.

Beyond the big project, we're doing some remodeling work on several cabins, a little more inside the Lodge, and we're adding on to one of the staff cabins on the athletic field. Folks, if you get the chance to drop by, we think you'll really like how great camp looks and how well the facilities serve our kids.

CAMP FOR ALL KIDS

held a fund-raising party at the Chicago House of Blues in February, and it was a blast! We're proud and appreciative of the many contributions made by Timberlane families and alumni to help make the event a success. One of our current staff members, **MATT RODIN**, was a featured artist for the event. He flew in from the Boston Conservatory to play guitar and sing at the event, donating his time to do so. And he was a hit! We also want to recognize the following camp alumni who made substantial donations to

the event: **DONNY & MICHELE LUX** of St. Louis (parents of alumni **PHILIP & ANDREW LUX**), **DAVID RASKIN** (alum and parent of campers **DOX & LEVI RASKIN**), **ADAM ROCHMAN**, and **JON & ANITA HEALY**. **RYAN COHEN** also donated a superb video he made with interviews of CFAK recipients as well as tuition-paying campers, talking about how CFAK has impacted them. (Timberlane boys were, of course, in starring roles). We had some great contributions from current camp families. While we're at it, we also thank current CFAK board members from our ranks, including **BRIAN "WILLY" WILLIAMS** and **MIKE KANOVITZ**. Both have worked hard not only on the fund-raising side of things, but also on the organizational side to make sure we can continue to help these well-deserving, and under-served kids attend great camps.

THE EFFORT GOES ON! Please support the important work of this organization. If you'd like to make a donation, you can do so from CFAK's website, www.campforallkids.org.
