Dear Alums,

Where do we start? When we come to grips with the passing of the camp's founding director and spirit, we should start at the beginning. Harold

Hiken loved camping, and he loved kids and young people. He was able to attend camp for the first time through the help of the Children's Outing Association in Milwaukee, and that was all it took. Soon after he and Sharon were married, he told her he would one day open his own camp for boys, and in 1961, that's what he did. We are all happier, stronger, wiser, more resilient, and anchored because he did. That's some debt of gratitude.

On a very chilly and damp afternoon in Milwaukee this past January, many gathered to pay final respects to H, and to try and provide comfort for Sharon and the Hiken family. The dozens of camp people there, and the incredible eulogy shared by Jim Hiken were testaments to the man and the camp director we had known, some for many decades. And, in true camp form, the solemn event was woven with laughter, joy, friendship, and of course, many stories. It was sad for everyone, to be sure, but the opportunity to be together with camp friends was also a celebration.

We want to share some thoughts with those of you who were at camp during the days when Harold & Sharon were the directors. I joined this community in 1985, and was accompanied a few years later by Leslie. While I had a lot to learn from Harold and Sharon, I had some ideas about things I wanted to accomplish for camp, and for camp to accomplish for the campers and staff who spend their summers with us. And though that raised some eyebrows among some of the camp "traditionalists" of that day, in reality, our goals and visions for camp have never been far apart. Camp is now, as it always was, a haven. It is a place for boys to be boys, and for adventures to be born.

It is a place for friendships to form and grow stronger and more durable than any others in a man's life. It is a place to experience the slower pace and awesome beauty of the Northwoods. It is a place to become independent and accountable. Those who were lucky enough to be campers would agree that's what they had when they were camp kids. And...that's how we do camp still today.

**HE DOING WHAT  
HE LOVED TO DO.**

We know there has been a sense of some divide between Hiken era camp and post-Hiken era camp. Truthfully, the differences are few; the similarities are many. Camp was home to you, and the same holds true for the campers last summer and the 30 years prior. So from Leslie and I, we extend to all of you this invitation; Come home. Come and visit us in the summer. In front of your eyes you will - from the moment you arrive - see the magic of camp you know so well. The staff will amaze you, and reconnecting with camp will add joy to your life and to ours. And please watch in the months ahead for coming news about Timberlane Family Camp, beginning in August, 2017. No matter what "era" of camp you started in, you are Timberlane family, and we look forward to camping with you again.

The summer of 2015 was nuts! We had another group of energetic and fun kids, and once again we were fortunate to have a staff overwhelmingly comprised of old-timers and former campers. We enjoyed some classic Northwoods summer

weather, including days of beautiful sunshine and mild temps, as well as some cool rains and epic thunder storms. And we worked on stuff before and after the summer. The path to the Ski Dock is now a beautiful stone walkway that is gentle and sloping, and - best of all - requires NO maintenance! We added another floating dock along the boardwalk for the pontoon and putt-putt boats to moor, and we did some re-arranging of walls inside Sioux

and Cheyenne Cabins to make the kids and counselors' rooms more spacious. The Tushball roof was replaced with ATA regulation shingles, and a nice new deck was added to the front of Menominee Cabin. But we ain't done yet!

Before the snow flew, the two basketball courts were torn up all the way down to dirt. Some trees on the driveway side of the courts had to be removed 😞 but that has made room for the construction of 2 brand new, high school regulation courts that will be ready for play when

the kids arrive...we're pretty sure. And instead of two separate hunks of asphalt, these will be on one continuous hunk all the way across. And in the space between the courts we are adding two high school regulation four-square courts! Is there such a thing? We don't know! But we'll have 2 of 'em. We've also done lots of work on roofs around camp, and we've replaced the large sliding windows in the Lodge with new ones. Seriously...wait till you see the place!

**A BEAUTIFUL STROLL TO THE LAKE**

If you received this issue via US Mail, we do not have a valid email address for you. Please help us save some trees! Send your email address to us at [mike@camptimberlane.com](mailto:mike@camptimberlane.com). Thanks!

Discovering Similarities  
Celebrating Differences

We are excited to announce a new effort to help our alumni and our current camp staff work together to raise money for CFAK.

Introducing...

**GREEN GROWS** is something completely new! Here's how it works. At the end of the camp season, we will ask our current staff to consider making a donation to CFAK from their camp paycheck. Prior to that time, we are asking you, our alumni, to pledge to match each dollar our current staff donates. So, if our staff raises \$500 total, each matching donor from our alumni will also donate \$500.

**GREEN GROWS** has some inherent benefits beyond raising funds for this incredible scholarship program:

1. It teaches our young staff about being philanthropic. Like many of you, this may be their first real paycheck. How great to learn about giving at this early point in their lives!

2. Imagine our ability to tell our current teens and young 20s staff that each dollar they give can become \$10 or \$20 because of the generosity of the alumni who came before them. They'll want to join in now, and when they're in your position, they'll want to do the exact same thing!

3. This connects you in a caring and powerful way to our current staff! When they learn that you are on board with them to raise money for a common purpose, that builds community between young and - *ahem* - not so young. Camp is ALL ABOUT building community!

We are hopeful that many of you will seize this opportunity to lead our current generation of counselors in this campaign of generosity. We are asking for an initial commitment to match a minimum of \$500. Anyone can implement a cap beyond that amount, so if our staff raises \$1000, and you want to cap your matching gift at \$750, that's what it would be.

To join **GREEN GROWS** please submit your pledged matching gift using this form: <http://goo.gl/forms/t4wZc69eKq>. You will not need to make your actual payment until August when we have determined the amount raised by our current staff. At that time we'll contact you via email and direct you to Camp for All Kids' secure donation page. Thank you very much.

## We have 2 invitations for you:

**COME TO OUR REUNIONS!** We invite you to attend our camp reunions when they are in a town near you. Each winter we hold reunions in cities around the country, and we know that you would enjoy being a part of it. Just being in the room as kids laugh and reminisce together, and then watching the video with everyone will bring you straight back to your camping days. Can you think of a better way to spend 2 hours on a winter weekend? We publish our Reunion Calendar online each fall, and we'll do our best to send you an invite when we're coming your direction. Please join us!

## SHARE YOUR TIMBERLANE TRIP MEMORIES!

We have started a blog called "TimberTrips" ([www.timbertrips.blogspot.com](http://www.timbertrips.blogspot.com)) and we invite anyone who went on trips and had meaningful memories from those trips to write about them and let us share them on our blog. We want our current campers to read about the way that trips have shaped you into the accomplished adults that you are now. We know this will be fun for you to write, and we think it will help continue the enthusiasm our campers have for getting out into the wilderness. To share your story, just email us: [mike@camptimberlane.com](mailto:mike@camptimberlane.com). Thanks!
