Dear Alums,

How do you prevent a heavier climber from pulling a lighter belayer off the ground when he falls? No sweat. You anchor the belayer to the ground. How do you keep your boat from drifting when you've arrived at the day's guaranteed

best fishing spot? Same solution. Set a good anchor. Anchors are important, and at times, can even be critical.

Strange, unprecedented things are happening these days (of course, I'm referring to last season's World Series... don't get me started). And while we adults navigate our own misgivings, it's so crucial that we remember there are kids watching us for coping clues, and trying their best to navigate uncertain times themselves. Growing up is, by definition, fraught with change and adjustment. When kids who are experiencing these major changes in their own lives see adults struggling to wrap their heads around upheaval in the "real world," it can have an unsettling impact with major consequences. So, we adults must serve as our children's anchors, and we are well-served to help them find additional people and communities on which they can dependably rely.

Enter camp! Sure...we're not above a little shameless self-promotion. But seriously...camp IS that anchor for hundreds of kids every year. Ironically, lots of times people ask "What's new at camp this summer?" And there's usually something...new equipment and gear, new boats and buildings, new programs, and new faces. But in the most important ways...in the ways that make camp CAMP, it is consistent from summer to summer. Our staff are always the role models who make sure camp remains a place where kids can be themselves regardless of their interests or abilities. Friendship is consistently held in the highest regard; a destination unto itself. Brotherhood is revered. Empathy is a sign of strength! Living with and learning about people from different backgrounds is exciting and fun...not scary. And most importantly, it is an environment, a tradition, and a feeling that kids can count on summer after summer after summer. For so many boys, this is their main grounding, it is THE anchoring that helps them move forward with confidence and greater peace of mind.

And, as usual, last summer was totally nuts! We had such excellent northern Wisconsin weather. With few exceptions, it was a shorts and t-shirt summer. And we had enough "heavy dew" (since it never rains at camp) to keep Towanda full and healthy. And speaking of Lake Towanda, it has risen nearly all the way back to the level it was when I first arrived at camp in 1985. That's meant some adjusting of docks and the boardwalk, but we won't complain. High tide is a very welcome site at the lake.

Enrollment was very good last year, and we continue to attract kids from around the country. We've remained very strong in cities, such as Chicago, St. Louis, and Nashville, we've grown strong in some new areas like Los Angeles, and we're growing again in places like Kansas City and Cincinnati. Last summer we had a camper join us from Dubai, and although he's moved to Cyprus this year, he'll be back, along with boys from Hong Kong. And we have a nice group every summer from Mexico.

2016 saw a major overhaul of our Sailing program. As you know, Towanda is a friendly lake, great for waterskiing. The lack of wind, however, can make sailing a challenge. So, this year we leased some dock space on Big Arbor Vitae Lake (about 3.5 miles from camp), bought 2 Capri sailboats, and each day took the boys sailing on the big lake. That gave us the wind and equipment to teach them so much more about the great sport of sailing, and it was a huge hit.

It wasn't in the plans, but 2016 also saw the addition of a new(er) ski boat to our fleet, a beautiful Sport Nautique. We still have 4 boats, including 3 Nautiques and a Malibu Flightcraft outboard. And, this summer we'll introduce wake surfing to our waterski program. Should be a blast!

The camp facilities are in incredible shape. Last year we constructed an archway entrance to the campfire ring as part of our dedication of the campfire to Harold & Sharon Hiken (more on that later). We also built a brand new hand-washing station outside the Lodge (the kids LOVE it...okay, maybe not.). This year we've done some work on Hawk and Menominee cabins, we're adding an Astro-turf covering to the Trampoline deck, and we reworked the path that passes Chippewa Cabin down to the newly renovated Swim Area deck. There's certainly more to come before the boys arrive.

TIMBERLANE FAMILY CAMP? WELL...NOT YET.

We're sorry to bear this news...we know some folks were excited. After soul-searching we came to realize we spend 100% of our energy (and then some) on the camp season, after which we're just not ready to take on a new endeavor. We're pooped! We think we will get there in the future, but we're just not ready yet. We hope you understand, and again...we apologize for getting anyone unduly revved up about it. But hey! Mark your calendars for the 60th Anniversary Reunion following the 2020 camping season. It's gonna be unreal!!

Our connection with Camp for All Kids is a true source of pride for us. Last summer we had 10 campers on scholarship from CFAK, and we anticipate more this year.

In the interest of conservation, this newsletter is ONLY available online. Please see the list of alumni for whom we have no email address, and ask them to contact us so we can connect with them and save some trees. Thanks!

Along with this issue is a letter from **GRANT LINKSY**, who joined us for an informational gathering in Los Angeles last month, and who has committed his support to CFAK. We hope those of you who know Grant and were colleagues at camp will jump in and help us send these great

Last summer we created a new opportunity for alums to connect with our current staff and raise money for CFAK. We invited our staff to donate whatever amount they wanted from their camp paycheck at the end of the summer. We solicited matching donations from our alumni. For our first try, we were pleased with the results. Over 40 staff donated, raising \$1700. Combined with 19 alumni matching pledges, the total was \$18,384.00!

Our thanks to the following alumni who joined in the effort last summer: **JAMES ANSFIELD, BILL & DEBBIE BERK, BOB & ALEXIS BERK, ROB BOND, GARY GARTEN, LEE GLICKSMAN, JOEL HART, MARK HUNTRESS, DARRIN INGRAM, MIKE KANOVITZ, DOUG KAPLAN, MARTIN LYNCH, PERRY RICHKER, ADAM ROCHMAN, JD RUBIN, BILLY SIEGEL, MICHAEL STOCKERT & BRIAN WILLIAMS.**

We are appreciative of this great effort. 19 alumni joined in. This newsletter you're reading is sent to over 1100 of our camp alumni. We hope to double (at least) the participation of our alumni this coming summer. Remember, not only does this raise funds for a great cause, it also helps us teach our young staff about philanthropy, likely for the first time in their lives. We urge you to be a part of it when we invite you to join in the 2018 drive. Thanks.

While we're saying thanks, we also appreciate donations to CFAK beyond the Green Grows campaign this past year by the following alums: **ROBERT BELUSHI, ROSS CAHN, STUART COWLES, JIM HIKEN, DANIEL JOSEPH, DOUG KAPLAN, TODD KESTIN, BRUCE LERNER, GRANT LINSKY, JEFF MOSSLER, RICK MOSSLER, MIKE PIERCE, DANNY & SABRINA PLATTNER, ADAM ROCHMAN, PAUL ROSENBLUM, STEVE SCHACHTER, GREG SCHATTEN, COLBY SHARLIN, AND DAVID SIEGEL.** Thank you very much! If we missed someone, we apologize. Please let us know so we can update our records.

Dear Fellow Timberlane Alum,

I am writing to you today to as a fellow alum of Camp Timberlane. We all share a connection and a very special bond through our Timberlane experience. No matter how long we attended camp, whether as camper or counselor, we all benefited from Timberlane and the life-long friends and memories it created.

My connection began fifty years ago when I first set foot in camp after being recruited by HH. I was not sure what to expect as a 10 year old, but I certainly couldn't have anticipated the intensity, the twisted but endlessly entertaining humor, or the many, many things I would learn and not just about water-skiing. It was an immersion course each summer in teamwork, preparedness and tolerance. Best of all, it was fun! My affection and connection to Timberlane has continued over the years. Today, my wife Nancy and I support a Camp for All Kids, a Timberlane-related charity that helps economically disadvantaged mostly inner city children attend various camps in the North Woods.

Camp for All Kids is a not-for-profit organization that raises money to help cover the cost of camp tuition for these children to experience many of the same things we did as children. The program targets 9 year olds with the idea that they will be attending camp for many years to come. More information on the program can be viewed at the link, campforallkids.org. Please check it out. Mike and Leslie Cohen, the current owners of Timberlane, are ardent supporters of this program. They help to support the charity by both reducing tuition cost and donating camper slots.

You can re-connect with Timberlane yourself by helping to support Camp for All Kids charity. Your participation will help afford children access to the experiences we all had. Please find a way to start donating to this most worthy cause. If you have already donated in prior years, we would hope you would continue to support the cause.

You are part of a fraternity, an alum of Timberlane, a Timberbrat for life no matter how long your experience was at camp. Re-connect and learn more about the fine things Mike and Leslie are doing to keep Timberlane going after all these years.

Should you have any questions and or comments please feel free to contact me.

Thank you,

Grant B. Linsky
